

Crisis Center, Inc.

# MOBILE UNIT

The need for services after a sexual assault is extensive. For many people there are numerous barriers to services, including a lack of transportation, insurance, time, and money.

The Crisis Center saw this need in rural communities surrounding Birmingham and started our Mobile Unit to help address the need for follow-up care for survivors. Our Mobile Unit is unmarked, because we know that survivors need to feel safe and anonymous!

This unit provides Rape Response and SANE (Sexual Assault Nurse Examiner) services, including follow-up medical exams and care. It also offers counseling for primary and secondary survivors and legal advocacy. It travels to a different county each day so that survivors do not need to drive to Birmingham to receive follow up services.
